Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

1. If a major incident occurs, members of the public in the immediate vicinity (i.e. less than 150 metres of the site) will be warned by a continuous audible alarm emanating from the Chemfreight site.
2. Emergency Services will contact the public in the wider area, if affected, to provide instructions.

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

1. In the event of a major incident, members of the public in the immediate vicinity are advised to go indoors and await advice from Emergency Services.
2. Emergency Services will contact the public in the wider area, if affected, to provide instructions.
