Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

Neighbouring properties to be notified by phone by the Ixom Emergency Response Service using contact information held as part of the Site Emergency Plan under the direction of the Facility Emergency Controller (FEC).

Notification of the public and further businesses within the wider affected area to be determined and carried out by emergency services, in consultation with the Facility Emergency Controller (FEC).

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

There may be a risk from fume or gases
 On notification of a major incident at the Ixom Timaru site, the public should shelter in place by going indoors and closing all doors and windows, until the emergency is declared over.
 If evacuation is required, this will be coordinated by the emergency services.
